WieTec 2020 New Dates Announcement

Dear exhibitors and visitors:

Since the beginning of 2020, the violent Novel Coronavirus outbreak has been disrupting China’s social and economic order and people’s lives. However, it has also allowed us to take a step back for a moment and reconsider the values and social responsibilities of the enterprises. As the organizer of the exhibition, we always put the health and safety of exhibitors and visitors first. Therefore, we made a quick decision and made some timely adjustments in response to the epidemic situation: WieTec 2020, originally scheduled to be held in early June, has been postponed to the end of August. Our organizer’s team is really moved and inspired by the extensive understanding and active cooperation received from the majority of exhibitors and visitors during this difficult period.

As a result of solidarity and unremitting efforts of the Chinese government and all sectors of society, the Novel Coronavirus that ravaged China has been effectively contained. The epidemic prevention and control is considered as a great achievement and one of the biggest victories in China. On May 8, The Joint Prevention and Control Mechanism of the State Council issued a guideline on regular prevention and control of COVID-19, by which holding of various necessary conferences and exhibitions have been approved.

The dormant convention and exhibition industry have been immediately delighted by the latest State Council’s guidelines. The major exhibitions affected by the epidemic in the first half of the year were rescheduled for the later dates, with the hope of normalization of the operations in the second half of the year 2020. In order to implement the guidelines of the State Council and cooperate with the government in the epidemic prevention and control, and to finally resume the work of the exhibition industry, the venue owner started the coordination process with different show organizers with the purpose to contain the exhibitions to the maximum extent within a limited time and space.

Preventing the spread of the epidemic and ensuring the health and safety of people while providing a fruitful exhibition experience at the same time have been the paramount importance to the organizer. After continuous
communication and consultation with the authority officials, the venue owner and other parties, it is confirmed now that WieTec 2020 will take place at the Shanghai National Convention and Exhibition Center (Hongqiao) with all of exhibitors and professional visitors from August 31 to September 2, 2020.

Considering the interests of the majority of exhibitors and visitors, the organizer chose the closest dates and made every effort to hold the exhibition dates steady. We sincerely thank you for your long-term support and loyalty. We will do our best to help the enterprises in the industry to resume production, and we will help our exhibitors to find business opportunities, and help our visitors to find quality. Our goal is to provide a one-stop B2B platform for the entire industry, the one that truly meets the needs of industry professionals and that allows them to play an active role in the recovery of the economic and social order!

Hereby notified, please forward the notice. We wish you health and safety!
